

My Lost Dog Song

(Sing to the tune of 'Baa, Baa, Black Sheep'.)

We took my dog on a little trip
To get her a microchip.

It has our address, it has our name,
It has a phone number to find us again.

We took my dog on a little trip
To get her a microchip.

My dog got lost last week in the park.

We searched until it was dark.

Then someone took her straight to the vet's.
They scanned the microchip to find our address.

My dog got lost but then she was found!
She's back home now, safe and sound.
