

ESSENTIALspelling

Year 3

Welcome to ESSENTIALspelling, a teaching resource from Herts for Learning.

This resource can be used as a scheme for spelling on its own, or in conjunction with the school's existing scheme to give supplementary teaching guidance. The complete resource features a suite of teaching sequences for each year group; these are designed to be taught in order, as they track back to each other and follow on in logical progression. There are around 30 sequences in each year group and each sequence represents a series of lessons, rather than one lesson. The length of time needed to deliver a sequence will depend on the needs of your class and the amount of time given to the teaching of spelling each week. Roughly speaking, each sequence is designed to be a week's work if you have the equivalent of four x 15-20 minute sessions of spelling teaching per week.

What is different about ESSENTIALspelling?

This spelling resource is different to other spelling schemes. It focuses more on the teaching of spelling so that children understand how to apply patterns, strategies and knowledge to other words and not just a list of words given for that week. It also provides links to prior knowledge and tracks back to related objectives so that teachers can give targeted support to children who are not yet able to spell words from their year group programme of study. Throughout the document, the extended titles: ***"Revisit, Explain, Use; Teach, Model, Define; Practise, Explore, Investigate; Apply, Assess, Reflect"*** have been used to indicate the full purpose of each section.

Unlike other resources, **ESSENTIALspelling** places an emphasis on the **Review** stage of the teaching sequence. This is not ‘what did we learn last week?’ but instead: “What do we already know that might help us to spell words in this sequence?” The **Review** session is essential because it gives teachers an opportunity for assessment for learning and gives pupils the chance to build connections between existing knowledge and new knowledge.

Similarly, the **Teach** part of the sequence has a huge focus in this resource. **ESSENTIALspelling** provides essential knowledge that will support teachers to explain and unpick the learning behind the lesson.

Wherever possible, all children should take part in these parts of the sequence regardless of prior spelling attainment. The review section always tracks back to prior learning and the teach section introduces new learning as well as strategies for tackling spelling. Unless children are supported towards age-related spellings, their learning gap will grow wider.

However, this resource does then offer a teacher the chance to tailor learning more specifically to the current needs and spelling attainment of the children. The **Practise** and **Apply** sections give children the opportunity to rehearse spelling patterns and use them in context. Below these sections are two further sections: **Minor Gaps** and **Major Gaps**. During the review section, you may feel that some children have small gaps in their knowledge and would benefit from shoring up the prior learning. Furthermore, you may have noticed that this is an area of weakness in their independent writing. If this is the case, you may prefer children to work on the activities described in the **Minor Gaps** section. There may also be one or two children who have little spelling confidence. They may have large gaps in certain areas, such as choosing the appropriate vowel, or how to add suffixes to words. They may be in the early stages of language acquisition or have cognitive difficulties.

In these cases, you might like to focus on the **Major Gaps** section during the **Practise** and **Apply** parts of the lesson. In rare cases, you may feel that it is more appropriate for certain children to tackle this work during the **Teach** section.

The **Practise** sections are generally straightforward and resource light so that teachers do not have to spend time copying and cutting, or explaining rules of games. However, several example resources are included and these could be adapted to work with other sequences. Homework is not mentioned but could be given to fit the sequence.

Likewise, the **Apply** sections follow a regular pattern of children discussing their learning and spelling words in the context of short dictations. Occasionally, an **Apply** section will contain an extended writing activity to challenge the children to choose and use words independently and in context. Spelling tests are not mentioned, but dictations will show whether learning has been assimilated. If single word tests are given, spaced recall is more helpful than testing children on lists of words from that week. In other words, throwing in words from previous weeks will help children bring words from short term into long term memory. A low stakes, manageable way of creating spaced recall opportunities is 'spelling tennis'. This is where children work in pairs to select 10 words from their partner's personal list of spellings and words from previous weeks. They then take it in turns to 'test' each other on these words and can mark these between themselves. This makes spelling tests more relevant to individuals. After any kind of dictation or test, it is imperative that children talk through successes and mistakes with a partner: "I remembered to double the consonant here, but I forgot to include an 'e' there."

It is important that children are able to articulate their learning throughout the sequence and that teachers address any difficulties or misconceptions along the way. This resource is designed so that children can build on prior learning, make connections with existing knowledge and learn strategies that will help them develop their spelling competence. It is through explaining what they have learnt about the patterns and processes of spelling that they will improve their ability to spell accurately.

FOR TRAINING ONLY

Autumn term – revision

(in order to fit this into the Autumn Term, you may have to adjust the number of weeks spent on each aspect. Although this is all revision, it is vital for ongoing spelling success.)

Order	Spelling Sequence	Page
1	Review vowel digraphs: ai, ay, a-e, a (/eɪ/)	6-8
2	Review vowel digraphs: ee, ea, e-e (/i:/)	9-11
3	Review vowel digraphs and trigraphs: igh, i-e, ie (/aɪ/)	12-14
4	Review vowel digraphs: ow, oa, o-e, o (/əʊ/)	15-17
5	Review vowel digraphs: oo, ou, u-e (/u:/)	18-20
6	Review vowel digraphs: oi, oy (/ɔɪ/) & ow, ou (/aʊ/)	21-23
7	Review common exception words from KS1	24-26
8	Review plurals ending vowel suffix -es, changing y to i and adding es and words ending ey	27-28
9	Review adding vowel suffixes -ed, -ing, when keeping ending or, changing y to is or chopping the final e	29-31
10	Review adding vowel suffixes -ed, -ing, when doubling the final consonant	32-35
11	Review vowel suffixes -er and -est	36-38
12	Review -le at the end of words	39-40
13	Review -el or -il at the end of words	41-42
14	Review -al at the end of words	43-46
15	Explore homophones and near homophones	47-50

Spelling suggested progression Year 3 Spring and Summer Term

Order	Spelling Sequence	Page
16	Review apostrophes for contraction	51-52
17	Review apostrophe for possession	53-54
18	Review suffix -ly (with a consonant before it)	55-57
19	Explore suffix -ally	58-59
20	Review consonant suffixes -ment and -ness	59-62
21	Review consonant suffixes -ful and -less	63-65
22	Explore the suffixes -tion and -ation	66-68
23	Explore the -sion suffix	69-70
24	Explore prefixes un-, dis-, mis-, in-	71-73
25	Explore prefixes re-, super-	74-75
26	Focus on the short vowel sound /ʌ/ spelt ou	76-77
27	Explore the vowel suffix -ous	78-80
28	Review high frequency words	81-84
29	Explore words with the long vowel sound /eɪ/ spelt ei, eigh, or ey	85-86
30	Explore words with the short vowel sound /ɪ/ sound spelt y in the middle of words	87-89
31	Explore words with the phoneme s spelt sc	90-91
32	Explore words containing silent letters written kn, gn, wr, wh	92-94
33	Focus on silent letters: words from the Y3/4 statutory word list	95-98

International Phonetic Alphabet (non-statutory)

The table below shows each symbol of the International Phonetic Alphabet (IPA) and provides examples of the associated grapheme(s). The table is not a comprehensive alphabetic code chart; it is intended simply as guidance for teachers in understanding the IPA symbols used in this document. The pronunciations in the table are, by convention, based on Received Pronunciation and could be significantly different in other accents.

Consonants	
/b/	bad
/d/	dog
/ð/	this
/dʒ/	gem, jug
/f/	if, puff, photo
/g/	gum
/h/	how
/j/	yes
/k/	cat, check, key, school
/l/	leg, hill
/m/	man
/n/	man
/ŋ/	sing
/θ/	both
/p/	pet
/r/	red
/s/	sit, miss, cell
/ʃ/	she, chef
/t/	tea
/tʃ/	check
/v/	vet
/w/	wet, when
/z/	zip, hens, buzz
/ʒ/	pleasure

Vowels	
/ɑ:/	father, arm
/ɒ/	hot
/æ/	cat
/aɪ/	mind, fine, pie, high
/aʊ/	out, cow
/ɛ/	hen, head
/eɪ/	say, came, bait
/ɛə/	air
/əʊ/	cold, boat, cone, blow
/ɪ/	hit
/ɪə/	beer
/i:/	she, bead, see, scheme, chief
/ɔ:/	launch, raw, born
/ɔɪ/	coin, boy
/ʊ/	book
/ʊə/	tour
/u:/	room, you, blue, brute
/ʌ/	cup
/ɜ:/	fern, turn, girl
/ə/	farmer

This chart is adapted slightly from the version provided on the DfE's website to support the Year 1 phonics screening check.

Revisit, Explain, Use

Display some single-syllable words that end with /l/ or /əl/ phoneme represented by the grapheme -ll such as *ill, will, full, pull, well, sell, shall, small, tall, fall*.

Can the children notice any patterns or links between the words? Can they think of any words that rhyme with words in this list?

Check children can hear that each of these words features a short vowel and therefore the final / has been doubled. Check children understand the difference between short and long vowels. Can they tell you what a consonant letter is? They will need this learning for the following sessions.

Teach, Model, Define

Write the words: *little, jungle, table, travel, camel, middle, muddle, battle, bottle, poodle, puddle*. What do they notice about these words? Elicit that most end with -le.

Teach best bet conventions laid out in spelling appendix of national curriculum Y2.

Choose -le priority as this is the best bet when adding /əl/ ending, spelt le /el/ /al/ or il.

Top tip to distinguish -le/-el: The NC advises which letters precede the -le ending and which precede the -el ending. The latter is a smaller list, and -el is a rarer choice. So best bet is -le.

In addition, it is interesting to note that -le generally follows consonant letters with an ascender or descender, such as *k – sparkle*, or *g – snuggle*. There are two notable exceptions – the letter *c* such as the words *circle, icicle*, or *z* such as *sizzle, drizzle*.

However, the national curriculum notes that -el is used following letters with no ascender or descender: *m, n, r, s, v, w* such as *camel* or *travel* (exceptions – *parcel, angel*). It may be helpful for children to note that in general, -el follows consonants with no ascender or descender.

Go back to the list of words. Help children to notice that where the word contains a short vowel before a consonant, that consonant is doubled before adding the -le. Ensure children can hear the difference between *table* and *battle*, *poodle* and *puddle*. Teach children that when the consonant is followed by two different consonants, there is no need to double the final one, as in *jungle* or *jingle*.

Practise, Explore, Investigate

Show parts of words and a definition, and ask children to try to write complete words by choosing correct endings, e.g.

pu_____ (a small area of rain water), c_____le (a 2D shape), li_____ (small), bo_____ (something to hold liquid), p_____p_____ (more than one person), t_____le (the name of books), ap_____ (a piece of fruit), m_____e (the centre), t_____tl_ (a creature with a shell), spa_____ (to glitter), _____ngle (to hang down).

puddle, circle, little, bottle, people, title, apple, middle, turtle, sparkle, dangle

Can children sort the words into two columns (double the final consonant before adding -le / two different consonants plus -le?).

Invite them to add any other words to the list under each column. Is there an odd word out? (**people**)

Minor gaps

Revisit learning and discuss any misconceptions plus teaching of high-frequency words that use the /l/ or /əl/ and /jəl/ sound, spelt -le such as: *little, people, angle, circle, title*.

Major gaps

Consolidation of single syllable words that end with /l/ or /əl/ phoneme represented by the grapheme -ll such as: *ill, will, full, pull, well, sell, shall, small, tall, fall*.

Apply, Assess, Reflect

Children try to explain what they know about words that add -le.

Dictation of sentences using -le words.

ESSENTIALspelling

Glossary

Affix:

an addition to the base form or root of a word in order to modify its meaning or create a new word (i.e. a prefix or a suffix).

Antonym:

a word opposite in meaning to another (e.g. bad and good).

Common Exception Words (CEWs):

Many **high frequency words** are decodable using **phonics**, but some will initially present difficulties as they contains rarer GPCs that the children will not learn straight away. Once children have progressed through the school's phonics scheme, the **high frequency words** that do not fit any of the **GPCs** studied so far -or have very rare GPCs- are called **Common Exception Words**. Some words may or may not become CEWs depending on regional accent. For example, in the south of England, the words bath, path and grass all sound as if they have an 'ar' sound but in northern accents, the spelling of these words is predictable.

Consonant: a basic speech sound in which the breath is at least partly obstructed, and which can be combined with a vowel to form a syllable. In the alphabet, 21 letters are consonants: *b, c, d, f, g, h, j, k, l, m, n, p, q, r, s, t, v, w, x, y, z* but *y* also acts as a vowel when found in the middle or end of a word. However, in total, there are 24 consonant sounds in the English language as we also have the digraphs *ch*, *sh* and *th* that each represent single sounds.

Etymology:

the (study of the) origin of a word and the historical development of its meaning.

Digraph:

see **grapheme**

Grapheme:

the smallest unit of writing in a language i.e. the letter or letters representing a single **phoneme** (sound) e.g. m, p, a, ai or ch. Where two letters represent one phoneme, they are known as a digraph (ai or ch). Three letters making one phoneme are known as a trigraph (igh or tch). Similarly, a quadgraph is the term for four letters making one sound (ough or eigh). A **vowel** digraph is made up of two letters making one vowel sound (ay/ou) and a consonant digraph consists of two **consonant** letters making one sound (sh or ng). Consonant digraphs should not be confused with consonant clusters or letter strings that make two or more separate sounds (e.g. spl, tr or cl). A split vowel digraph consists of two vowel letters making one phoneme but straddled around a consonant (*came* or *like*). The second vowel in the digraph is always an e but it is silent. It acts to turn a **short vowel** sound into a **long vowel** sound and makes the first vowel letter say its name (e.g. ah to ay).

Grapheme- phoneme correspondence (GPC):

the letters that represent sounds in a word. If a word has 3 (phonemes) sounds, it will have the corresponding number of graphemes i.e. 3. This does not necessarily mean 3 letters. For example, the word cup has 3 phonemes and 3 graphemes (c-u-p), but so does the word rain (r-ai-n). The word church also has 3 phonemes and graphemes (ch-ur-ch). Each grapheme corresponds to the phoneme. If the letters representing a sound are rare or unusual, the words can be tricky to spell. The word fruit has 4 phonemes and graphemes (f-r-ui-t) and it has an unusual GPC in the middle- ui making an 'oo' sound. This word is said to contain a 'rare GPC'.

High frequency words (HFW):

Words that occur most often in the written language. These are often identified as the first 100 most common words and the next 200 medium frequency words. Many are decodable using phonics, but some will present difficulties as they contain rarer **GPCs** that the children will not learn straight away. Once children have progressed through their phonics scheme, the high frequency words that do not fit any of the GPCs studied so far are called **Common Exception Words** (see linked glossary entry).

Long vowel:

see **vowel**

Morpheme:

the smallest meaningful unit in a language (e.g. wait = one morpheme, waiting = 2: wait + ing). It is not the same as a word, or a syllable. For example, grandmother is one word with 2 morphemes (grand + mother) and 3 syllables (grand + moth + er). Morphemes can be **'bound'** (only found attached to a root word and cannot operate independently e.g. un- or -ed), **'unbound'** or **'free'** (able to stand alone e.g. happy).

Morphology:

In linguistics, morphology analyses the structure of words and parts of words, such as **root words**, **prefixes**, and **suffixes**. It explores how words can change and looks at their relationship to each other.

Phoneme:

the smallest unit of sound in a language. Represented by a corresponding **grapheme**.

Phoneme frame:

A resource used in the teaching of **phonics** and spelling to help children segment words into constituent sounds. The frame is typically a long rectangle divided lengthways into boxes. When children hear a word, they are encouraged to represent each **phoneme** heard by placing a **grapheme** in each box, in sequence and in the order in which the sounds are heard. For example, the word farm would be represented as:

f	ar	m
---	----	---

Phoneme spotter:

A resource designed to support the teaching of target **phonemes/graphemes** within a context. The aim is for the children to read and comprehend the text in the first instance. They can then identify the target words, which have been chosen to support revision, new learning and extension, where appropriate. Teachers may decide to use extracts from the spotter to support assessment through dictation.

Phonics:

is a method of teaching children to read by linking sounds (phonemes) and the symbols that represent them (graphemes, or letter groups).

Prefix:

A prefix is an **affix** that is placed before the root of a word. Adding it to the beginning of one word changes it into another word. For example, when the prefix un- is added to the word happy, it creates the word unhappy. Whilst a prefix carries meaning and will therefore change the meaning of a word, it is a **'bound morpheme'** in that it can only be found attached to a root word and cannot operate on its own.

Root word:

A word stem or base that has no prefix or suffix attached to it. The root is the smallest unit of meaning associated with the word. For example, in the word unhelpful, help is the root word. A root word carries meaning and is usually an **'unbound (or free) morpheme'** in that it can stand alone without the addition of other morphemes and still make sense.

Schwa sound:

see **unstressed vowel**

Silent letters:

In some words, there are letters whose presence cannot be heard in a word such as the g in gnome, the w in two or the b in thumb. The spellings of these words are often the legacy of historic pronunciations and its **etymology**.

Short vowel:

see **vowel**

Suffix:

A suffix is an **affix** that is placed after the root of a word. Adding it to the end of one word changes it into another word. For example, when the suffix -ful is added to the word joy, it creates the word joyful. A consonant suffix begins with a **consonant** letter (e.g. -ment) and a vowel suffix begins with a vowel letter (e.g. -ing). Whilst a suffix carries meaning and will therefore change the meaning of a word, it is a '**bound morpheme**' in that it can only be found attached to a root word and cannot operate on its own.

Syllable:

a unit of pronunciation having one **vowel** sound, with or without surrounding **consonants**, forming the whole or a part of a word; for example, there are two syllables in danger and three in elephant. Sometimes syllables are referred to as the 'beats' of a word.

Synonym:

a word or phrase that means exactly or nearly the same as another word or phrase in the same language, for example *jump* is a synonym of *leap*.

Unstressed vowel:

this is the 'uh' sound we hear in "weak" syllables in English words, like the er in sister or the i in family. It is found in many words and can be spelt using just about any vowel spelling, so can be difficult for children to distinguish and spell. It is also known as the schwa sound.

Vowel:

a vocal sound made with a relatively open mouth compared to a **consonant**. There are 5 vowel letters in the English language: a,e,i,o,u (with the letter y often acting as a vowel when at the end or beginning of words). There are 20 vowel sounds in the English language, many made by **vowel digraphs**. **Short vowels** are **vowel** sounds that are pronounced in a short form. In English the **short vowel sounds** are those in pat, pet, pit, pot, put, putt. They are often (but not always) represented by a single letter (consider words like bread and hook where the short e and u are represented by two vowel letters). Conversely, a long vowel is a vowel sound that is pronounced the same way as the name of the letter itself in words such as rain, week, light, boat, cube. Long vowels are vowel sounds often (but not always) represented by two or more letters (consider words like unicorn and table where the long vowel sound is represented by the single vowel letter u). **There are other vowel sound classifications such as 'r controlled vowels' (e.g. ar, or, ur, air, eer, ear) and 'vowel diphthongs' (e.g. ow, ou, oy, oi), but it is usually easier to talk about these with children in terms of them also being types of long vowel sounds.**

As a schools-owned company Herts for Learning operates with a not-for-profit ethos, and is committed to providing innovative and evolving services, resources and products to help those we work with to deliver a great education.

We passionately believe that every young person, through access to a great education, should be able to realise their potential, regardless of where they live or their circumstances.

With over 520 school shareholders, Herts for Learning is the largest schools' company in the UK, and we are dedicated to improving education for young people in Hertfordshire and beyond.
