

Dinosaur Movement Song

(Sing to the tune of 'Here We Go Round the Mulberry Bush'.)

Dinosaurs lived so long ago,
Long ago, long ago.
Dinosaurs lived so long ago,
Let's sing a song about them!

Tri-cer-atops, they had three horns,
Had three horns, had three horns.
Tri-cer-atops, they had three horns,
And this is what they all looked like!

(Encourage children to do an action representing the Triceratops, such as holding three fingers up to their foreheads or holding up some artwork of a Triceratops.)

T. rexes had sharp teeth and claws,
Teeth and claws, teeth and claws.
T. rexes had sharp teeth and claws,
And this is what they all looked like!

(Encourage children to do an action representing the T. rex, such as bending their arms next to their sides with 'claw-like' hands or holding up some artwork of a Tyrannosaurus rex.)

Stegosaurus, they had big spikes,
Had big spikes, had big spikes.
Stegosaurus, they had big spikes,
And this is what they all looked like!

(Encourage children to do an action representing a Stegosaurus, such as using their hands to represent spikes on their arms or back or holding up some artwork of a Stegosaurus.)
